

CHICA SWO Educational needs Survey September 2012

	Acute	LTCH	Public Health
15 - Behavioral Motivation and Change	10	1	4
14 - Antimicrobial Stewardship programs	11	1	2
10 - Occupational Health for Communicable Diseases	6	1	3
9 - Regulatory bodies e.g. MOL/Compliance	7		2
9 - Success Stories in IPAC	7		2
9 - AROs	6		3
8 - PIDAC best practices Knowledge products	4	1	3
7 - Outbreak management	4	1	2
6 - Infection Control IN LTCH	2	1	3
6 - Infection Control in primary Settings	4		2
6 - Routine precautions and Additional precautions	5	1	
6 - Influenza vaccination and antiviral prophylaxis	3	1	2
5 - Infection Control in the Community	4		1
5 - Infection Control in Developing Countries	4		1
5 - Staff and Patient vaccination programs	2	1	2
4 - Surveillance and Epidemiology: how to calculate rates	4		
3 - TB and Mantoux testing	1		2
3 - Respiratory Viral testing and results interpretation	2		1
3 - Hand Hygiene	3		
2 - C difficile	2		

Other: role of microbiology in IPAC, Pet visitation, VRE screening, ES PIDAC BP on content and success stories, construction CSA Z8600, mold abatement, description of lab tests i.e. ELISA, Western Blot, IgG, PFGE, PCR etc.

I would like to provide presentations on the following: a) a non-product presentation with a generic overview of skin antiseptics and Health Canada's 2009 Guidance Document on Human-Use Antiseptic Drugs; b) Taking Action: Inappropriate glove use and its impact on hand hygiene compliance. Kathy McGhie

Cleaning and disinfection products, structure and physiology of bacteria, viruses etc. and how they protect themselves i.e. efflux pumps etc.

Speakers identified: Sue Cooper, Bonnie Kearns from Red Cross (spoke June 2012) CPE, MDRO

Kathy McGhie, Jim Gauthier

Monika Szabo – Elgin St. Thomas Health Unit- local picture of staff influenza immunization uptake in LTCHs. Excellent speaker presents her research findings with a somewhat surprising conclusion.

CHICA SWO Educational needs Survey September 2012

Are you satisfied with current meeting modality? 4 face to face meetings and 1 video conference

Yes-16

No: 2: 2 webcast OTN meetings then 3 face to face

Chairs uncomfortable

Can't always attend meeting due to business

Offer live plus OTN option- OTN for those who cannot attend

4. If you experience challenges attending face to face meetings what is the nature of these challenges?

- Just a thought could we have PIDAC or PHO endorsement of the meetings- most of our admin have never heard of CHICA so it carries no weight
- Time away from work is a big challenge
- Lack of time support from leadership x 3
- No challenges currently
- We need to educate and survey LTCHs – perhaps via their administration/DOC group (Deirdre would know where to best direct the communication) as to how to best service this sector with educational initiatives, assistance to attend meetings, potential speakers from within their group.
